

FINALS BEGIN AT WILLIAM & MARY

Baccalaureate Address by Dr. Tudor, of Washington—Literary Society Celebration.

(Special to The Times-Dispatch.)
Williamsburg, Va., June 5.—Commencement exercises at William and Mary College began yesterday morning with the baccalaureate address by the Rev. William V. Tudor, D. D., of Washington, D. C. The chapel was crowded to hear the address, which was an able one, and delivered in the speaker's most vigorous style. After prayer by the Rev. M. J. Hoover and a song service by the Methodist choir, President Lyon G. Tyler presented the speaker.

Dr. Tudor's text was taken from St. John ix. 3, his theme being "Character or Righteousness." He emphasized the need of the church and of religious education and life, and that no life of education was complete without both. It is in the church alone, said the speaker, that the coming man will come into his own.

The ex-William and Mary was a scene of animation and beauty, to-night, the occasion being the annual celebration of the Philomathean Literary Society. The hall was resplendent in its decorations of orange and white, the college colors, and the speakers were accorded an enthusiastic hearing. The following was the evening's program:

Address by the President, Howell Barringer.

Dubate—Question: Resolved, That immigration into the United States should be restricted to those who can read and write the Constitution of the United States, provided that satisfactory evidence of those dependent upon such immigrants. Affirmative, Robert Clarence Warburton; Negative, Arthur Wilson James.

Orations—Anglo-Saxon Imperialism, by William Mortimer Harrison; "The Spirit of the South," by Herbert Wentworth Vaden.

To-morrow night the annual celebration of the Phoenix Literary Society will take place. Many alumni are arriving to attend the finals, which promise to be unusually brilliant.

Following the exercises, the judges announced that the debater's prize had been awarded to Mr. Jones and the orator's to Mr. Harrison. In the afternoon the speakers were presented to the successful contestants by Rev. W. A. R. Goodwin, of Rochester, N. Y.

Taft and Roosevelt Will Confer on Tuesday
President and Ex-President to Meet During Cardinal's Jubilee.

Washington, June 5.—Colonel Roosevelt and President Taft will meet in Baltimore next Tuesday for a conference to-morrow for a conference—the first public meeting since President Taft's inauguration. The meeting will take place during the jubilee of Cardinal Gibbons.

George Von L. Meyer, Secretary of the Navy in President Taft's Cabinet, and Postmaster-General in President Roosevelt's Cabinet, was a guest of Colonel Roosevelt at Oyster Bay Wednesday last. He went to Oyster Bay

from New York City on the presidential yacht Sybil.

On his trip to Oyster Bay Secretary Meyer arranged the details for the meeting on Tuesday.

When President Taft and Colonel Roosevelt met on Tuesday the whole plan for the next national convention, which will be held about a year hence, will be laid before the colonel. The latter's plans for campaigning will be discussed any points of difference between the two.

In addition to the President and Colonel Roosevelt, Postmaster-General Hitchcock who as chairman of the Republican National Committee managed the Taft campaign, probably will attend the conference.

Notwithstanding, Mr. Hitchcock's declaration that he desired to quit politics, the word comes direct from the administration that he is still in the saddle and will remain there for some time to come. The Postmaster-General admits he is unable to swing entirely clear from politics. It is admitted also that many of the post-office appointments in the last two years have been made with the idea that the appointments would help at the convention.

The visit of former Forester Gifford Pinchot to Colonel Roosevelt and his later visit to Secretary of War Stimson had much to do with bringing about the meeting. Secretary Stimson, too, has been an aid in this direction.

Secretary of the Interior Fisher also has done much to bring the friends of the President and the Pinchot people together. Secretary Fisher accompanied the President to Chicago.

Another proposition which the two leaders will discuss will be the attitude of certain Republican Senators toward reciprocity and through reciprocity toward the President.

Queen Quality

YOU should not judge shoes merely from the outside. You should get at the "inside" facts as well. These facts count the most. The inside facts of "Queen Quality" shoes are:—

(1) Most popular lady's shoe in the world, as proved by largest sales; (2) Made by firm with largest resources; (3) Million-dollar trade-mark reputation behind each pair.

AVIATOR BAGUE IS LOST AT SEA

Feared That French Birdman Has Suffered Fate of Cecil Grace.

Nice, June 5.—It appears more and more probable to-night that Lieutenant Bague, the French aviator, has met the fate of Cecil Grace, the Englishman, who was lost in the North Sea while attempting a flight from Calais to Dover last December. Lieutenant Bague, who holds the overseas flight record, left Nice in his aeroplane this morning for a trip to Corsica. The distance between the two points is a little more than 100 miles, and when nothing was heard from the daring aviator, torpedo-boat destroyers were sent to seek him.

The destroyer Arbalette returned here this evening from Corsica, and reported that it could find no trace of Bague. Other naval vessels are continuing the search, but it is feared that it will prove fruitless.

The aviator took carrier pigeons with him, and it is believed that the aeroplane capsized so suddenly that he was unable to set them loose. The Arbalette left again for Corsica at a late hour to make a further hunt for the missing aviator by means of searchlights.

On March 5 last Lieutenant Bague made a sensational and daring flight over the Mediterranean Sea from Antioch to the little island of Gorgona, off the Italian coast. He covered the distance of more than 200 kilometers (124.5 miles), establishing a new record for overseas flight. It had been his original intention to land at Ajaccio, on the west coast of Corsica, but he lost his way, and by so doing, covered a greater distance over the water than if he had carried out his original plan.

GLASS AT ACCOMAC SCORES SWANSON

(Special to The Times-Dispatch.)
Accomac, Va., June 5.—Congressman Carter Glass addressed a large audience here to-day in the interests of his candidacy for the United States Senate. He charged Senator Swanson with having negotiated for the seat of Senator Daniel six months before Mr. Daniel's illness. He also charged Swanson's statements of his achievements in Congress, and accused him of extravagance in his administration as Governor, thereby leaving a bankrupt treasury to his successor. He declared that the editorial in his Lynchburg paper complimenting Swanson's administration, was written on statements of Swanson at Surry Courthouse, which he had since found to be false.

He defied Swanson to come "off his perch" that he would repeat the charges to his face. Mr. Glass scored the machine in general terms; accused McDonald Lee of mismanagement of the Board of Fisheries; attacked Norfolk county politics; repeated his charges against the South Boston News, and excoriated J. T. Daniel, of the Cape Charles Times, for his change of front, declaring that he profaned the name of Daniel.

Class Day Exercises Held.
(Special to The Times-Dispatch.)
Lynchburg, Va., June 5.—This was class day at the commencement of the Randolph-Macon Woman's College, rain postponing the Ivy planting from the forenoon to the afternoon. An immense crowd witnessed this annual event. To-night the senior class rendered the annual class play.

Will Build New Bridge.
(Special to The Times-Dispatch.)
Roanoke, Va., June 5.—The supervisors of New Kent and Charles City counties held a joint meeting to-day at the old bridge and after inspecting the structure, which is in a dilapidated condition, decided to build a new bridge to span the Chickahominy. The new structure will be built of first-class white oak and it will be 432 feet long.

THE WEATHER

Forecast: For Virginia—Unsettled weather, probably showers Tuesday and Wednesday; moderate temperatures; moderate east and clear. For North Carolina—Local thunder showers Tuesday and Wednesday; light to moderate, variable winds.

Model Dairies—Holstein Cows Utterly Germless Milk

A milk like the best in Switzerland—produced by Swiss and Dutch experts—costs less than your milkman's milk.

We are milking 30,000 cows per day—inspected cows—kept under model conditions. They are Holstein cows which are fed and bred in our finest dairying districts.

Close to each dairy we have built an evaporating plant, without wood. Each is a model of cleanliness.

The milk, fresh from the cow, is put into a vacuum. There, at a low heat, two-thirds of the water is removed by evaporation.

Nothing whatever is added—no sugar, no preservative. Nothing but water is taken out. We bring you that milk—the finest milk in America—in an utterly sterile condition. Yet it costs you less than the poorest milk delivered from day to day.

Equal to Swiss

We brought famous experts from Holland and Switzerland to help us produce this milk. Over \$100,000 has been spent to bring this milk to perfection.

Now we offer you an evaporated milk equal to the finest in Switzerland. Milk from high-bred cows—milk that won't separate—milk that is sterilized without being scorched.

No other milk—either raw or evaporated—begins to compare with this. And yet milk of the lowest grade doesn't cost any less. That is why it takes 30,000 cows to supply homes that want Van Camp's.

RICHMOND COLLEGE SENDS OUT BIG CLASS

Sixty-Seven Graduates to Receive Degrees at Finals on June 14.

WORK NOT HURT BY FIRE

Dr. Taylor to Preach Sermon, and Dr. Smith to Deliver Commencement Address.

Sixty-seven graduates—three masters of arts, thirty-four bachelors of arts, one bachelor of science and twenty-nine bachelors of law—will receive their diplomas at the closing exercises of Richmond College, which will take place Wednesday night, June 14. In spite of the fact that the college was

greatly handicapped by the fire which occurred during the Christmas holidays, the session has been the most successful in the history of the institution. When the north wing of the college was wrecked, destroying the books and other property of students who could ill afford it, it was feared that a number of those who were working their way through would be unable to return. Due, however, to the untiring efforts of President Boatwright and other members of the faculty during the holidays, each man was enabled to return, and all finished the session with credit to themselves and the school.

Advice to the Aged.
Age brings infirmities, such as sluggish bowels, weak kidneys and bladder and TORPID LIVER.

Tutt's Pills

have a specific effect on these organs, stimulating the bowels, causing them to perform their natural functions as in youth and

IMPARTING VIGOR

to the kidneys, bladder and LIVER. They are adapted to old and young.

"Spring Tonic."
Long Island Malt

\$1.50 Dozen.

NUTRITIOUS APPETITE CREATOR.
